Dear Parents,

Your child has expressed an interest in becoming a member of the newly formed Photography and Multimedia Club.

The club will meet every Friday at lunchtime to develop a range of skills centred around the use of digital technologies including DSLR and video cameras, green screens and audio devices. We will also be focussing on post production ICT skills to produce short films, edit photos and create montages that will be used in a range of mediums including whole school assemblies, newsletters and other school events.

Whilst the school will provide a number of cameras for students to work with we are encouraging students, if possible, to bring a camera from home to use each Friday. To ensure cameras are kept safe and protected students will be asked to 'check in' their camera each Friday morning at Mr Alston's room where they will then be put into the school safe until lunchtime. All cameras will be placed back in the safe after lunch and distributed at the end of the day. It is advisable to bring a camera with a strap and/or bag to minimise the risk of damage when transporting the camera to and from school.

Bringing a camera from home is by no means mandatory and students will still receive the benefits of the program if they do not bring their own camera, however the more cameras we have the more time each student will spend behind the lens! Please be mindful that children are responsible for transporting their camera safely to and from school and do so at their own risk.

We look forward to working with your child beginning this Friday. If you have any questions or queries please don't hesitate to email (see above for address).

NB: Students already taking part in Code Club are not able to participate in the program.

Kind regards,
Sean Alston, Simonne Marsden and Evert Eykman
