

Dear Parent,

These school holidays we are hosting a very special school holiday program called Code Camp where your child can learn to code and build their very own iPhone or Android app!

Code Camp has already taught more than 27,000 students in Australia and is a great way to spend time over the holidays as kids have lots of fun with friends while learning important new skills such as logic, creativity, problem solving, app development and game building in a fun and engaging way, ready to take on the digital world of the future.

Every child attending a holiday camp will build incredible games on Code Camp's software platform "Code Camp World" and walk away with their very own app, playable via the Code Camp App store that they can take home to share with family and friends!

Follow this booking link for all the dates and details about what's on offer for the Summer Holidays: www.codecamp.com.au

Enrol today and help your child become a coding superstar!

For more information, visit codecamp.com.au/faq or contact us at hello@codecamp.com.au.

Thank you,

The Code Camp Team
